
Poland at WTM 2017

In 2017, the Polish travel industry will be represented by two regional tourist boards - Malopolska located in the South of Poland and the Lublin region in the East. Also, there will be more than a dozen tour operators and travel companies from all regions of Poland. They will bring to the table their latest offers and fresh ideas how to expand business links with UK and international partners, attract ever more visitors and let them enjoy the beauty of Polish landscapes and cities by exploring the undiscovered treasures of Poland.

Whether you are a buyer, tour operator, agent or media representative, you are guaranteed to find exciting tourism products and offers at Poland Stand EU 730. Because Poland is a country that can inspire and surprise.

This year's offers will highlight the various ways of spending free time in the different regions in Poland: cities - Krakow, Warsaw, Lublin, its culture and heritage; the offers from places with a perfect incentive possibilities to combine city breaks with exploring the surrounding areas and also proposals of activities, leisure and spa & wellness unique services.

Your partners at Poland Stand EU 730 will be happy to show you how you can easily create package or tailor-made holidays and take advantage of their new ideas for travel products, cultural programmes for city breaks, activity holidays and MICE.

There will be special attractions prepared for Poland Stand visitors, media and industry guests to sample Polish food and drinks.
