

Get inspired at the biggest independent movie festival!

Join the crowd of visitors from all over the world, watch the most interesting films of the year and independent artists receiving Netia Off Camera awards.

Netia Off Camera Festival is back and this time it has four new sections! "Until the grave" ambition is to prove that the melodramatic conventions are possible, and we still long for romance stories. The "Future Section" is an invitation to think together about the future, which is coming faster than we all think. "Strong Sex" section touch on what bothered, fascinated, delighted, depressed or frustrated modern women. And the last "People Are Fiction", which induces a change in the optics and a look at the position of man in the world and its association with the phenomena considered to be "degeneration." Good news is that previous sections including "American Independent," "Discovery," "Best of Fest," and "Getting Started" will be there too!

Ten titles in the Polish Feature Film Competition are fighting for PLN 300,000 - the Kulczyk Foundation Prize. The winning film will be announced on May 6 at the finale of 10.Netia Off Camera. The same evening we will also know who will be the main prize - \$ 100,000 - Krakow Film Prize awarded within the framework of the Main Competition.

Must see for every cinema lover! More info at <http://www.offcamera.pl/en/>
